GENERAL INFORMATION

If you fly with SeaPort frequently, opening a corporate account is a great way to save even more money and time. When you open an account, you'll get a personalized login name and password to make bookings right from our website. You'll enjoy 5%, 10% or 15% savings, depending on what kind of an account you have. There are no monthly service fees or handling charges, and accounts never expire. Read on to learn about each of our programs.

There are three account types, each with different benefits. All SeaPort accounts operate as debit accounts, so tickets are paid for from the balance deposited into the account.

SILVER ACCOUNT

\$1,000 to \$4,999

Each Silver Account is opened with a 5% bonus. If you put \$1,000 into an account, we open it with \$1,050. A Silver Account allows the holder to purchase tickets online using the account to pay for airfare, retrieve booking history and accounting information at www.seaportair.com. Any service fees are charged to the account.

GOLD ACCOUNT

\$5,000 to \$19,999

Along with the benefits of Silver Accounts, each Gold Account is opened with a 10% bonus. If you put \$10,000 into an account, we open it with \$11,000. We add 10% anytime your account is reloaded with at least \$5,000. Gold Account Members are exempt from baggage fees and change fees, and Portland parking fees can be charged to the account.

PLATINUM ACCOUNT

\$20,000 and above

Along with the benefits of Silver and Gold Accounts, each Platinum Account is opened with a 15% bonus applied toward the balance. If you wish to put \$20,000 in an account, we open it with \$23,000. We add 15% anytime you reload an account with more than \$20,000.
